ANNUAL REPORT
OF THE QUEEN'S PRINTER AND
CONTROLLER OF STATIONERY

*To His Excellency The Right Honourable Vincent Massey, C.H., Governor General
and Commander-in-Chief, Canada.*

MAY IT PLEASE YOUR EXCELLENCY:

The undersigned has the honour to present to Your Excellency the Annual Report of the Department of Public Printing and Stationery for the year ended March 31, 1952.

Respectfully submitted,

F. GORDON BRADLEY,

*Secretary of State and Minister charged with the administration
of the Department of Public Printing and Stationery.*

OTTAWA, October 20, 1952.

ANNUAL REPORT OF THE QUEEN'S PRINTER AND CONTROLLER OF STATIONERY

Hon. F. G. BRADLEY,

Secretary of State and Minister charged with the administration
of the Department of Public Printing and Stationery,
Ottawa.

SIR,—I have the honour to report on the activities of the Department of Public Printing and Stationery as directed by Section 37 of Chapter 162, R.S.C. 1927, The Public Printing and Stationery Act.

The main activities of the department are centered in the Printing, Stationery and Sales and Distribution Branches and this report includes comments from the heads of each of these three branches on their operations during the year.

The other activities of the department are shown as follows:

	PAGE
(A) Report of the Controller of Purchases.....	11
(B) Audit of Government Advertising.....	12
(C) Financial Reports of the Chief Treasury Officer under the following headings:—	
1. Income and Expenditure Statement.....	19
2. Queen's Printer's Advance Account.....	20
3. Details of Printing Branch Inventory.....	22
4. Amounts charged against Parliament and the Departments for Printing.....	23
5. Printing Branch Comparative Statement.....	24
6. Amounts charged against Parliament and the Departments for Stationery.....	25
7. Stationery Branch Comparative Statement.....	26
8. Details of Expenditures by Votes.....	27
9. Details of Ordinary Revenue.....	28
10. Canada Gazette, Comparative Statement of Revenue and Expenditure.....	29

The Technical Research Unit of the department has had a very busy and, I believe, successful year. They conducted one hundred and seventy-three investigations and made as many written reports embodying suggestions which resulted in substantial savings. A great variety of subjects were covered concerning new equipment, printing material, plate making, methods of production and simplification of work, and numerous special studies made of large printing projects and requirements.

Extended studies were made of duplicating facilities located in Ottawa and other government administrative centres, and training programs in the operation of teletypesetting, vari-typer and other new processes recently introduced in the department have been conducted.

It is believed that in the operation of a printing plant of the importance of that operated by this department, constant investigations of the kind referred to above are essential to efficiency and economy.

The Technical Research Committee have also made numerous and fruitful investigations in the choice and use of office equipment operated in conjunction with certain items of stationery.

Although almost every unit of the department needs additional space, limited storage facilities only were requested and obtained for the Department by the Department of Public Works.

The staff as at March 31, 1952, totalled 1,132 persons—an increase over the same date in 1951 of 91. Separations during the year were 146 and assignments 237.

Respectfully submitted,

EDMOND CLOUTIER,

Queen's Printer and Controller of Stationery.

OTTAWA, October 16, 1952.

REPORT OF THE SALES AND DISTRIBUTION BRANCH

Government of Canada Publications

EDMOND CLOUTIER, ESQ., C.M.G., O.A., D.S.P.
Queen's Printer and Controller of Stationery.

SIR,—I have the honour to submit the Annual Report of this Branch for the fiscal year ended March 31, 1952.

New records were established in the number and value of publications sold, receipts from sales turned in to the Receiver General of Canada and the number of inquiries concerning Government publications. More persons purchased Government publications from this Branch during the past fiscal year than ever before. Some of these publications have reached "best-sellers" proportions and many have established superior sales records.

Sales of publications to the general public jumped from \$135,846.45 to \$185,879.54, an increase of \$50,033.09 over the preceding fiscal year. Sales of subscriptions to and copies of the CANADA GAZETTE amounted to \$25,720.92 as compared with \$25,680.00 last year. Sales of publications and official documents to Government departments and agencies amounted to \$18,269.31, a decrease of \$31,927.73. Total sales of Government publications by this Branch amounted to \$229,869.77, an increase of \$18,146.28 over the 1950-51 fiscal year.

During the fiscal year 1952 many important steps were taken to make the functions of the Branch speedier and more efficient. A special effort to cooperate with other Government agencies in replacing a widespread free distribution of their publications with a system whereby they would be sold by the Queen's Printer was started during the year with excellent results.

Improvement in service functions of the Branch has probably been most striking in the sales program, which was planned to handle the ever increasing work-load in accordance with the pattern established by the best commercial mail-order houses.

Interest in Government publications has been stimulated among new groups by distributing circulars, with order-blanks, focussing attention on certain unusual or outstanding publications, a step which has proved an exceptionally effective means of increasing sales to the general public.

Comparative statement for the years 1950-51 and 1951-52 is as follows:—

The table printed herewith shows the total number of copies of publications received and the general disposition of the same. Many copies of each document, sometimes practically all, are delivered direct to the ordering department; in some cases copies are requisitioned by the Clerk of the House of Commons for distribution to Members of Parliament. Often considerable numbers are mailed direct to addresses supplied by the Clerk of the House and by the department interested. Copies of all publications not confidential in character are mailed to important libraries, etc., under P.C. 1471, a regulation enacted on August 4, 1927, and operative since September 4, 1927. The system indicated applied not only in the case of annual reports but to practically all publications other than Statutes of Canada.
